

INSPECTIONS IN SMALL PROJECTS

Juha Iisakka

University of Oulu, Finland
Department of Information Science

Inspection

- what means
- "normal" inspection
- limited inspection
- pair inspection

Small Project

- no generally accepted definition
- only a few persons
- typically maintenance oriented

Small project and inspection

- too little staff
- not enough expertise
- very informal organisational structure

Small project and a company

- Small project can be part of a big company
- or
- The company itself is small

Some experiences

- sensitive to personality changes
- pair inspection needs checklists
- it is easier to correct than report
- pair inspection needs training
