

The **Faculty of Mathematics and Economics** at the University of Ulm in Germany invites applications for an assistant professorship (Juniorprofessur) in stochastics with tenure track option (pay scale W1) to commence **on October 1<sup>st</sup>, 2009**.

We are looking for candidates with a strong research record in a modern field of stochastics or statistics. The future assistant professor should be open to practical problems and applications of stochastics. Additionally, his (or her) readiness to apply for third-party funded research grants is required. He (or she) will contribute to the (under)graduate teaching program in stochastics for students in mathematics, economical mathematics and economics.

Requirements for appointment include a completed course of studies at a university, teaching ability, and research ability, which is usually documented through an outstanding PhD thesis.

The selection and employment procedure is based on the regulations laid down by university law regarding the appointment of professors. Employment conditions require a university degree, educational qualification which is normally proven by teaching experience, and qualification for academical working which is normally proven by an outstanding doctorate.

The appointment will initially be on the basis of a temporary civil servant status or on an employee status for three years. Following a positive evaluation, there will be a further three years' extension. This assistant professorship can be tenured at a full professor's level (pay scale W3) provided that an open professor position is available and the assistant professor meets the requirements of high scientific qualification, competence and performance (tenure track option).

The University of Ulm is committed to increase the share of women in research and teaching positions and therefore explicitly encourage female candidates to apply.

Please send your application (cover letter, c.v., list of publications, list of courses taught, certificates of academic grades as well as copies of your most important publications/working papers) **by 30. November 2008** to the Dean of the Faculty of Mathematics and Economics, Prof. Dr. Frank Stehling, University of Ulm, D-89069 Ulm, Germany. Please indicate on the **envelope the index number 73**.

Physically disabled applicants receive favourable consideration when equally qualified.
